THE PERFECT WAY.

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it. The perfect way is to cure the kidneys. A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, Cigar-maker, living at 1311 Ashby street, Tacoma, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to go to work for several days. The secretions of the kidneys were in very bad condition, dark in color and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

A Man's House Is His Castle

It should be fortified, protected with good paint. Ten houses are burnt up by slow decay, from not being properly painted, to every one that is destroyed by fire. And yet it costs but little to keep a house well painted, if the right kind of paint is used. The best painter in the world cannot do a good job with poor paint, but give a good painter

PATTON'S SUN-DRIP PAINTS

and you will surely get a job that will look well and wear well. They are economical paints because they cover so much more surface and wear so much longer than ordinary paints. They are sold by reputable dealers whose business existence depends upon the continued patronage of satisfied customers. Call Color Card and information from

On Sunday afternoon, Oct. 27th, at 3 o'clock, Mr. William P. Allen of Crescent City and Miss Rose E. Holley were married at the residence of the bride's mother, only the relatives of the family being present. The parlor was very prettily decorated with palms, magnolias, holly and golden red. The bride walked in with her groom and took their place in front of the mantle. The bride wore a very pretty dress of white melrose with long white gloves which was very becoming to her. She is a general favorite among young and old, and has a host of friends who wish her happiness in her married life. Mr. Allen is one of Crescent City's popular young men and is well known and liked by all who know him. The happy couple left immediately after the ceremony for their home in Crescent City, where they expect to reside in future.

E. M. Angier of Georgetown was in town Monday.

F. C. Cochran was in town one day last week.

The Value of Convicts.

Polk county has leased its convicts for \$30.20 per month. Hillsborough gets only \$28.10. This comparison should be filed for reference when the next lease is considered by the Hillsborough commissioners.—Tampa News.

Putnam county convicts were leased in December 1905 for a period of four years, at \$12 per month. It might be a good idea if the authorities would file away the above item for reference when the time comes for making the next lease in this county.

Mr. Burr Here.

Hon. R. Hudson Burr, chairman of the Florida Railway Commission will be in the city today for the purpose of consulting with Mr. Geo. B. Selden of the Palatka board of trade concerning the slow progress of the new Palatka depot.

Mr. Burr spent an hour or two between trains here yesterday and registered at the Arlington. He stated to the News that he had no knowledge on the subject, but it was his opinion that Gov. Broward would call a special session of the legislature.

A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. JAMES A. LEWIS, Pastor, Milam, Minn., M. E. Church, Chamberlain's Cough Remedy for sale by Ackerman-Stewart Drug Co.

LATE STATE NEWS.

Large quantities of oysters are being shipped from Carrabelle.

The State Fair at Tampa will be held from February 5th to 23d.

St. Joseph's Catholic Convent at St. Augustine is to be enlarged by a costly addition.

A mid-winter exposition of Florida products will open in Jacksonville Jan. 15th and continue up to April 15th.

Lake City is moving for a cotton yarn mill and a committee of prominent citizens has been organized to further the plans.

Congressman Frank Clark made a masterful speech in favor of prohibition at the foot of Main street, Jacksonville, on Tuesday night.

Hon. Park M. Trammell of Lakeland has definitely announced that he will be a candidate for United States Senator to succeed Senator Mallory.

The Rt. Honorable Bob McNamee of Tampa, spokesman of the whisky interests of Florida, is now trying to stem the tide of prohibition sentiment at Key West.

The state encampment of the Florida National Guard for 1907 has just come to an end at Pensacola. The encampment was one of the most successful ever held, as well as enjoyable.

James W. Perkins of DeLand has sold his orange and grapefruit crop in bulk to A. C. Haynes for \$8,500. Mr. Perkins is solicitor for the Criminal Court of Record in DeLand, and orange growing is only a side line for purposes of recreation.

James M. Smith, a Jacksonville grocery clerk, shot and killed John B. Milton another young man at the corner of Bay and Bridge street in Jacksonville last Saturday night. Smith was separated from his wife, who kept boarders to maintain herself and children. Milton was one of her boarders, and Smith was jealous. Case looks bad for Smith.

The immense gineries of W. W. Gordon & Co. at Gainesville burned Tuesday afternoon with nearly a hundred bales of cotton. The fire gained considerable headway before it was discovered. The loss aggregates about \$15,000 to \$20,000. Nearly a hundred bales of cotton belonging to customers, stored in a separate apartment were saved before the fire reached them. The machine shops of Adamson & Blake was also destroyed with a loss of \$2,000. Gordon's insurance not known.

Senator John S. Beard of Pensacola, in a letter to Frank L. Mayes of the Pensacola Journal, says there is nothing to prevent the legislature of Florida from passing a law for state prohibition. Mr. Beard says: "The Constitution of the state of Florida places no limitation or restriction upon the power of the legislature to prohibit the sale of intoxicating liquor in the state. I take the intent and meaning of Article XIX to be as follows, viz: That as the sale of intoxicating liquors is legal in the absence of State Prohibition, Article XIX permits any county, upon complying with the conditions specified in the article, to prohibit the sale of liquors in that county. Without Article XIX, there could be no local or county prohibition, only state prohibition. Article XIX permits local, or county, prohibition in the absence of state prohibition, but is in no way a limitation or restriction upon the power of the Legislature to establish state prohibition. While Article XIX permits local, or county, prohibition in the absence of state prohibition, the converse is not true. If we had state prohibition, no county could permit the local or county sale of intoxicating liquors. Should the governor convene the legislature in extraordinary session, and in his proclamation specify state prohibition as one of the purposes for which the legislature is convened, or, if after convened, he directs the attention of the legislature to this subject, I think that a state prohibition law could easily be passed; and I am firmly of the opinion that the courts will uphold the constitutionality of such a law. If, however, the governor neither mentions state prohibition in his proclamation convening the legislature nor directs the attention of the legislature to it, after convened, then the matter could not be taken up, except by a two-thirds vote of each house. So you see that, to a great extent, it depends upon the governor whether the legislature would consider the question in extraordinary session."

The State University.

The University of the State of Florida is now in full operation. When the opening day arrived on Sept. 25th, many improvements were to be noted about the grounds and buildings. Artificial stone walks leading out from the center of the city to the university had been extended as far as the present main entrance, from which similar walks led to and in front of the Thomas and Buckman halls. The driveways throughout the grounds had been greatly improved. A goodly number of acres at the rear had been cleared to make a place for the farm to be in connection with the Department of Agriculture and Horticulture. The lands were beginning to get into shape. Altogether the grounds showed the effects of the labor that had been expended upon them during the summer.

Inside the buildings improvements can also be noted. The halls have been wainscoted to a height of about five feet, and above the wainscoting the walls have been plastered in hard finish. Neat brass numbers and plates mark every door. The mess-hall and chapel have been prettily papered and made more attractive than they were last year.

There have been some changes in the faculty. Prof. Jno. M. Scott of the Experiment Station, has been placed temporarily in charge of the Department of Agriculture and Horticulture, made vacant by the resignation of Prof. H. W. Clobrier. Dr. Sellards having been appointed State Geologist, his place has been filled by Dr. H. S. Davis. The Department of History and Political Economy, made vacant by Dr. Thomas' acceptance of a call to the University of Arkansas, has been placed in charge of Dr. E. M. Banks.

Of the new men Dr. Davis received his first degree at the Wesleyan University, Middletown, Conn., in 1899. The next year he spent as a graduate student of the same university. Leaving here he was for a year a "University Scholar" at Harvard. After this he occupied in turn the following positions: Instructor in Zoology; Washington State College from 1901 to 1904, assistant professor of Zoology in the same institution from 1904 to 1906, assistant Zoologist in the Washington State Experiment Station during his connection with the college, that is from 1901 to 1906. The next year he went as "Thayer Scholar" again to Harvard, where at the end of the session he won his Doctorate.

Dr. Banks received his A. B. and A. M. degree from Emory College, Georgia. Since then he has studied at Columbia University and in Germany. His Ph. D. degree was won at Columbia. He has been a Fellow in Economics at Columbia, and has taught at Emory College and at the University of Pennsylvania. He has been a contributor on educational and economic topics to the Methodist Quarterly Review, to the South Atlantic Quarterly and to the Annals of the American Academy of Political and Social Science, and has published a volume on the Economics of Land Tenure in Georgia.

In this connection it might be well to add that the Experiment Station has all of the old men back, and in addition has secured the services of Mr. B. F. Floyd and Mr. John Belling. The officers of the University and Experiment Station remain the same with the exception of the Superintendent of Grounds, which position is now filled by Mr. A. G. Colclough, and of the Librarian. The former Librarian, Mr. W. S. Cawthon, resigned to accept the principalship of the Gainesville High School. So far his successor has not been appointed.

The state can congratulate itself upon securing the new men. The faculty is harmonious, and the work already done gives strength to the belief that the session will be very successful.

Of the standing committees appointed by the president those of most general interest are probably the ones designated Self Help and University Extension. The former is to help as far as possible needy students, and is composed of Professors Benton, Floyd, Hochstrasser, Messrs. Benton, Floyd, Hochstrasser, Crow and Dier. The latter is composed of Professors Vocum, Anderson, Farr, Schmidt and Banks. The former committee has already secured for several students lucrative positions that do not interfere with college duties, and would still consider applications for positions from needy would-be students. The latter committee has arranged for a large number of lectures to be given by the various professors wherever they are invited. Several invitations have already been received from high schools throughout the state. A printed list of lecturers and their subjects can be secured together with any other information desired by writing to the chairman.

Sidelights of the Panic.

A stock broker who has been nagged to death the last few days by a nervous friend who owns about four shares of stock, got even yesterday when he was called to the phone by the fretful one, says the New York World.

"What's the news?" asked the excited man.

"Brooklyn bridge suspended," shouted the broker.

"Heavens, what else?"

"The Subway is in a hole."

"I've got twenty shares of Inter-Mets," yelled the nervous man.

"What else?"

"The Singer building has gone up."

"Good God!"

LINGERING COLD

Withstood Other Treatment But Quickly Cured By Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. U. Zephary, of Zephyr, Ontario. "My cough was very harsh. The local doctor recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. I believe Chamberlain's Cough Remedy the best I have ever used." This remedy is for sale by Ackerman-Stewart Drug Co.
